BNW IntegriSafe Inc.

COMPANY PROFILE

Your equipment, certified. Your operations, uninterrupted.

BNW IntegriSafe, Inc. is a DOLE-OSHC accredited testing organization based in Quezon City. Our trained, qualified inspectors, led by a licensed Professional Mechanical Engineer, inspect, test, and certify equipment on site for clients nationwide.

★ Founder-led, on every job

25+	24 hrs	Triple-Certified	2029
Years combined field experience	Quotation within 24 hours	PME · OSHC Inspector · Safety Consultant	DOLE-OSHC accredited until
Seasoned judgment on every inspection	Plan your budget without waiting days	Documents accepted the first time	Current, verifiable accreditation

SERVICES

What we inspect, test, and certify

✓ All certifications are signed and sealed by a licensed Professional Mechanical Engineer (PME) and a DOLE Authorized Inspector.

Heavy Equipment Inspection

Cranes, forklifts, excavators, payloaders, graders, and other construction heavy equipment.

You get: signed test report, certificate, and PASSED sticker on the unit

Load Testing & Lifting Gear

Overhead cranes, hoists, chain blocks, slings, shackles, and hooks.

You get: signed load test report, certificate, and sticker or tag

Non-Destructive Testing

UT thickness gauging (UTG), penetrant testing (PT), and magnetic particle inspection (MPI) by Level 2 practitioners.

You get: signed NDT report, certificate of NDT, and engineering evaluation for acceptance, remaining life, and factor of safety (as applicable)

Hydrostatic Testing

Pressure testing of vessels, piping, hoses, and fire lines.

You get: signed hydrostatic test report and certificate

DOLE PTO / CEI Support

Inspection, testing, and as-built plans for boilers, pressure vessels, air receivers, gensets, power piping, elevators, hoists, electrical systems, and other mechanical equipment.

You get: test results, as-built plans and drawings, and DOLE documents

Storage Racking Inspection

Checks on pallet racking for damage, overloading, and safe installation.

You get: signed report, recommendations, and storage racking certificate

Safety Training

Customized courses for workers and supervisors, onsite or online — from equipment inspection to OSH topics.

You get: certificate, manuals and materials, plus free consultancy during training

Engineering Consultancy

Guidance on equipment safety, compliance gaps, and documentation from a Licensed Professional Mechanical Engineer (PME).

You get: findings and recommendations, signed and sealed by a PME

WHY CLIENTS TRUST OUR RESULTS

Backed by people, standards, and calibrated tools

Trained & Qualified Inspectors

Inspectors who know exactly what your permits and certifications require.

Standards-Based Inspection

Philippine OSH Standards, DOLE issuances, manufacturer specifications, and recognized engineering codes.

Calibrated Equipment & Tools

Calibrated instruments for accurate, reliable readings in every report.

Multidisciplinary Team

Safety professionals, engineers, technical inspectors, and heavy equipment operators.

ACCREDITATION

Accredited by DOLE – Occupational Safety and Health Center

Republic of the Philippines
Department of Labor and Employment
Occupational Safety and Health Center

CERTIFICATE OF ACCREDITATION

TESTING ORGANIZATION
For Construction Heavy Equipment

BNW INTEGRISAFE, INC.

JOSE MARIA S. BATINO
Executive Director
Occupational Safety and Health Center

Accreditation	Testing Organization for Construction Heavy Equipment
Certificate No.	1410-26080226-0056
Valid until	August 2, 2029

✓ SEC-registered corporation ✓ BIR-registered ✓ Business permit, Quezon City ✓ DOLE-OSHC accredited

Vendor accreditation documents available upon request: info@bnwintegrisafe.ph

LEADERSHIP

Led by its founders. 25+ years in the field.

Engr. Precioso G. Reyes Jr., PME

Founder · President & CEO

15+ years experience

- PME · PRC License No. 0007053
- DOLE-Accredited Safety Consultant (No. 1030-102124-OSHC-0607)
- OSHC Authorized Inspector
- NDT Level 2 — UT, PT, MT

"Every report we sign is a promise that your people can work safely."

Mark B. Clave

Co-Founder · VP for Operations

10+ years experience

- OSHC Authorized Inspector
- NDT Level 2 — UT, PT, MT
- TESDA NC II Heavy Equipment Operator

"I've inspected heavy equipment for over a decade. I know what to look for, and what can't be missed."

BNW
I'MSAFE

OUR CORE VALUES & PROMISE

Six values behind every inspection. One promise: every worker who sees the BNW seal can start the job knowing, "I'm safe."

I	M	S	A	F	E
Integrity	Mastery	Safety	Accountability	Faith	Excellence

OUR MISSION

To inspect every piece of equipment as if our own family will work beside it.

OUR VISION

To make "I'm safe" the first thing every Filipino worker feels on site.

WHAT WE FOUND

Real findings. Real risks, caught in time.

From years of inspection and training work, here are some of the real findings we've seen on site, shared without client names.

What you can't see can still fail.

Air receiver tank · Manufacturing plant, Rizal

FOUND
In service for about 30 years and never inspected. UT thickness gauging showed the shell plate had thinned far below its original thickness, with a factor of safety of about 2.5, half the required 5.

ACTION
Recommended derating; the client chose to replace the tank.

RESULT
Retired before it could fail.

The tag said 10 tons. The sling could only take 3.

Lifting sling · Crane rental company

FOUND
A sling the client had labeled 10 tons was actually a 3-ton sling, based on its color, width, and manufacturer marking.

ACTION
Held a learning session on verifying sling capacity.

RESULT
Correctly identified before any heavy lift.

Brand new doesn't mean safe.

Boom truck · Construction site, Laguna

FOUND
A unit fresh from the manufacturer showed a hydraulic oil leak at the outrigger cylinder during load testing.

ACTION
Recommended taking it out of service until repaired.

RESULT
Repaired within a week and passed the re-test.

INDUSTRIES WE SERVE

If it runs on equipment, we keep it safe and compliant.

- Construction
- Manufacturing
- Power & renewable energy
- Warehousing & logistics
- Food & beverage
- Shipbuilding & marine
- Oil, gas & utilities
- Equipment rental & services

Nationwide on-site service. We mobilize to your site anywhere in the Philippines, so your equipment is tested where it works.

HOW IT WORKS

From inquiry to certificate in four steps

01
Send your equipment list, capacity, and site location.

02
Receive your quotation within 24 hours.

03
Our team inspects and tests on site.

04
Receive your signed report and, where applicable, certificate.

ON THE JOB

Real sites. Real equipment. Our own team.

Excavator inspection

Dump truck inspection

Lifting sling inspection

UT thickness gauging

Hydrostatic testing

Safety training for workers
